Consumer Outreach

Describe consumer outreach efforts in the past 12 months: The Plateau Companies maintain a public website displaying their entire selection of handset and devices, including those that are HAC-compliant. The Plateau Companies' sales staff is trained to assist existing and prospective customers in identifying HAC-compatible handsets and devices. Existing or prospective customers can typically find whether a handset or device is HAC-compliant by either checking the packaging containing the handset/device, or by consulting the packaging insert or operations manual. For more information on HAC, existing and prospective customers can be directed to www.accesswireless.org/hearingaid/brochures.cfm and other public websites dedicated to HAC education.

Methodology for Functionality Levels

The Plateau Companies offer HAC-compatible handsets and devices in all major price categories, including low-cost ("C" level) (<\$100), moderate-cost ("B" level) (\$100-\$250), and high-end/feature-rich ("A" level) (>\$250). Costs generally correlate with the number of features, but, if through experience, the Plateau Companies find that a certain handset contains features that work well with hearing aids, such as volume control, it will be labeled accordingly at the "high-end/feature-rich" or "A" level for functionality. The Plateau Companies' sales staff is trained to assist all existing and prospective customers looking for a HAC-compliant device/handset. HAC-compatible handsets and devices vary in their inherent "levels of functionality," but typically at least one (1) HAC-compliant handset/device with features and services typical of its price category can be found that meets each customer's price range.

This report for the Plateau Companies includes the following licensees: Plateau Telecommunications, Incorporated ("PTI"), Texas RSA 3 Limited Partnership ("Texas 3 LP"), New Mexico RSA 4 East Limited Partnership ("NM 4 ELP") and E.N.M.R.
